

The Claims

1. A toilet seat adapted to be pivotally mounted on a toilet bowl and specially configured for users such as a person with large buttocks, disabled persons or children comprising:

a generally planar seat plate, said seat plate having an oval hole in its central region to permit passage of discharge into said toilet bowl, said seat plate adapted to be pivotally mounted on said toilet bowl;

side extensions laterally extending from said seat plate, each side extension having a laterally outboard end region disposed at an acute angle upwards from said generally planar seat plate; and

each side extension having a cut-out thereby forming a respective handle for said user.

2. A toilet seat as claimed in claim 1 wherein said oval hole in said seat plate has a lateral dimension and each lateral extension has a lateral dimension which is approximately the same as said lateral dimension of said oval hole.

3. A toilet seat as claimed in claim 2 wherein said cut-out has a length which equals or exceeds one-half of the length of said oval hole.

4. A toilet seat as claimed in claim 3 wherein the acute angle is less than 10 degrees.
